AMS To Host Parley

Assistant News Editor

Delegates for 35 colleges will attend the 15th bi-annual conference of the Southern California Junior College Associated Men Students hosted by the Monarch AMS here tomorrow.

Chairing the conference meeting which will run from noon to 8:30 p.m. will be Lary Klein, AMS president here. The theme for the conference is "Man's Image on Campus."

Dr. T. Stanley Warburton, associate superintendent in charge of college and adult education in the Los Angeles City Schools, will be guest speaker at the general assembly at 2:30 p.m. His subject will be "The Role of the AMS in Junior College.

Sponsors Confab Acting as official sponsor of the

conference will be Samuel T. Alexander, assistant dean of students. Conference delegates will register

at 12:45 p.m. There will be approximately six or seven delegates from

A workshop briefing delegates will follow registration at 1:45 p.m. At this time delegates will be oriented to where other workshops will be held.

Follows Briefing After the briefings will be the first general assembly at 2 p.m. Scheduled

Tutorial Aids Still Sought For Program

Students may still volunteer to tutor in the tutorial program at Sharp Street Elementary School in

Now in it second semester of operation with 107 tutors, the program came as a result of the work of Sherry Reson, psychology major, and Farrel Broslawsky, instructor in

There are no rigid requirements for volunteers, but they must attend this college and have a desire to help the children with school work. All interested students may sign up in B34 from 11 to 2 p.m. every day.

All Volunteer

Participation in the tutor program is voluntary for children as well as tutors. On Tuesdays through Fridays students meet to donate their time helping the child with his problems.

According to school principal Bert Vance, 40 per cent of the 1,238 attending Sharp are bi-lingual, speaking English and Spanish, with many of the children coming from homes where English isn't spoken at all.

For this reason, reading seems to be the main problem students at Sharp encounter.

Individual Help

"The plan of the tutoring program is simple. Since there is not enough time during the normal school day to give every student the attention he needs in the classroom, the answer seems to be to single out the problem children and give them as much individual help as they need in catching up with the class work," said Diana Simmons, director of the

In an attempt to achieve this goal, tutors not only teach the children the three R's but talk to them about anything of interest and then usually end the day's session by playing

At 3 p.m. delegates will proceed to their assigned workshops. There will be five workshops in session at the from Los Angeles Pierce College, will discuss resolutions and recommendaconference. Each one will cover important issues in different fields.

Discuss President

In the president's workshop, chaired by Klein, resolutions concerning the AMS president's role and his qualifications will be discussed. Other topics will be AMS activities and relations with the other major organizations on campus including faculty, AWS, Associated Students and service clubs.

Intramural Athletics Workshop. chaired by Pete Pellerito, delegate tions concerning rules for intramural games and their financial aspects.

Mrs. Lowry said of the novel. "I

"Although Gide's influence on Jean-Paul Sartre, Albert Camus and other French existentialists has been very great, and although he himself has been called an existentialist, Gide in fact had as little faith in the philosophy attitude that would turn ordinary men from traditional customs and beliefs as he had in those customs themselves."

the English daily newspaper Liberty. in Bangkok. He worked as the press attache for the Vietnamese embassy in Bangkok, and in 1956 was named alternate secretary general of the Colombo Plan general meeting held in Saigon in 1957.

Dinh was appointed a minister plenipotentiary, and a general consul of Vietnam to the Union of Burma from 1958 to 1960.

Resigns from Position

As director general of information All news regarding club activities of the Republic of Vietnam, Dinh served in cabinet rank for one month in October, 1960, and then resigned. Joining the Vietnamese mission in the United Nations in 1961, Dinh was appointed counselor in the Vietnam embassy in Washington, D.C.

After the overthrow of President Ngo Dinh Diem, Dinh was chosen as a minister plenipotentiary and consul general of Vietnam to India in 1963.

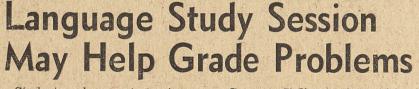

Dinh has recently written "No Passenger on the River," which is a story about the war in Vietnam.

TRAN VAN DINH Supreme Court Will Hear Case

Supreme Court will try its first contested traffic violation case today at 11 a.m. in B26, according to Stan Hill, chief justice of the court.

The citation involves a moving and parking violation contrary to school traffic regulations. Council for the defense has been chosen by the accused student. Another student has been chosen to act as prosecuting attorney.

Hill explained that in the past the court had automatically dropped any charges to which a student had pleaded not guilty. He also said that the present court policy was not just to set an example but to enforce school traffic and safety regulations.

Students who want to improve their grades in foreign language classes may attend a language study seminar Tuesday at 11 a.m. in E102. Mrs. Brigitte Hirsch, assistant professor of French and an adviser of

the French Club, states that the language study seminar is designed to "give students a chance to solve their problems with the help of their teachers." William Welch, president of the French Club, said the seminar should also "improve the study techniques of the students and improve communication between students and

is being sponsored by the French Club, with the cooperation of the German, Italian and Spanish clubs and Alpha Mu Gamma, honorary society in foreign languages.

Angelo Villa, associate professor of Spanish and adviser of Alpha Mu Gamma, will introduce the seminar. Representatives from each club will lecture on study methods and 25 minutes will be devoted to questions

"If you have a question or problem, this is the time and place to present it," says Welch. "We have a faculty 'braintrust' with years of experience to advise you on your language study problems."

should have common activities.

shop, to be chaired by Jan P. Pietrzak, delegate from Mt. San Antonio College, will talk about the definition and role of AMS officers, procedure of election of officers and jurisdiction and role of AMS officers, procedure of election of officers and jurisdiction of the Executive Board

Money Talk

In the Financial Workshop the major issues which will be discussed concern money-making activities for AMS, problems of the AMS budget and a report on the budget and a summary of the financial background of the AMS. Chairing this workshop will be Danny Tegan, delegate from Fullerton College.

Discussion of AMS-A.S. relations will be held at a workshop chaired by John Holder, delegate from Pasadena City College. It will also cover cooperative projects with other school organizations and events sponsored for

Workshops will end approximately at 5 p.m. Delegates will then proceed to the Cafeteria for dinner.

Delegates Caucus

At 6:15 a caucus will take place. All delegates from the different schools will meet with their own members in designated rooms to discuss resolutions brought up at the workshops. This enables the delegation to have a unified vote at the second general as-

A final assembly will be held following the caucus session where delegates will accept or reject resolutions submitted by the workshops.

Attending the conference from Valley will be Klein; Roy Schauben. SCJCAMS vice-president; John Kunkel, treasurer; and delegates Mike Burge, Steve Feldman, Joe Gero, Don Goldstein, Keith Kintner and Mitch

Physics Group To Meet Today

"Holograms-What Are They?," the third segment of the Physics Seminar, will be presented today at 11 a.m. in P101 by Dr. Ronald Lundgren, member of the technical staff at Hughes Research Laboratories.

Dr. Lundgren earned his B.S., M.S. and Ph.D. degrees in electrical engineering from the University of California at Berkelev.

While in graduate school, Dr. Lundgren was associated with the Electrical Research Laboratories where he did research on parallel field devices

and electron beam instabilities. Joining the Electron Device Department at Hughes in 1965. Dr. Lundgren's work involves research on holograms and other optical data

"A hologram," said Edward Clark, chairman of the Physics-Electronics Department, "is a three dimensional reproduction or image of an object." Continuing, Clark, associate professor, said, "Holography is a newly revived area of optics made possible by the extremely monochromatic

light of a laser source." The Physics Seminar is a series planned for science and engineering students wanting to supplement classroom work by talking with professionals from other industries and uni-

versities in the Los Angeles area. Initiated a year ago, the seminar is to introduce frontier areas for research and development in physics.

This week's presentation is the sequel to Dr. Frank Harris' talk on "Holograms and Lasers" of Feb. 24.

Bank of America

Scholars Win Man, Woman of Year Award

City Editor

Current and former Scholar of the Month winners have been named recipients of the California Junior College Man and Woman of the Year Bank of America Awards.

Foreign language major Elizabeth

Cervantes, recently named March Scholar of the Month, was selected Woman of the Year. February Scholar of the Month

Bruce Harris, a chemistry major, was awarded Man of the Year.

Active in Clubs

Both students have belonged to campus clubs, holding various offices. have participated in activities and have received awards and scholar-

Miss Cervantes' past and present club activities include Coronets, vicepresident and corresponding secretary: Newman Club vice-president: recording secretary and representative of the club in interfaith programs and Alpha Mu vice-president.

A member of Tau Alpha Epsilon and Les Savants, college scholarship socities, Miss Cervantes has been historian of the club and active in the former members of California's pro- club's school tutorial program. She is a member of the J.F.K. Young Democrats. Associated Women Students

Committee last semester.

As community services she is tutoring at Sharp Street Elementary School in the college tutorial program and is an assistant at religious instruction classes at St. Jane Frances Church. She was selected AWS Woman of

ceived two A.S. scholarships and has been on the Deans' List twice. Aspiring to become a teacher, Miss

Distinction last semester and has re-

Those Who Want To Do Something

thing personally for Americans fighting in thousands of books. Vietnam. Several colleges and universities have joined the movement, which provides paperback books for our soldiers.

Valley can't be the first, but there's still time to start our own drive so that we won't be the last or possibly miss out altogether. For example, the Junior Class Council and the students of California State College at Los Angeles have already collected 75,000 books which are piled in every extra space at Cal State, and the incoming flow continues.

According to arrangements there, the books will be taken to El Toro Marine Air Base, where they are to be airlifted to the 3rd Marine Amphibious Force in Vietnam. The books will be distributed from this point, completing the success of the project.

Zeta Beta Tau, a social fraternity at USC, has initiated "Operation Paperback" there.

"Operation Paperback" is a new project Other colleges are rapidly joining the movepopular on college campuses. It gives a real ment. There can't be too many. For thouopportunity to those who want to do some- sands of men, there must be hundreds of

> Although any club could spearhead "Operation Paperback," the Star recommends that the Executive Council head the project and make it a truly college-wide affair. If the Executive Council has too full a schedule, why not have the Inner Organizational Council take on the project? Clubs could contest and get points for the number of books collected. How about one point per

Preplanning, as well as enthusiasm, is necessary. Arranging for transportation of the books to Vietnam after collection is the first step. Then a systematic campaign for collecting books on campus should be set up.

If Cal State can collect 75,000 paperbacks, why not 100,000 at Valley?

Right To Know, Right Not To Know Could Clash Beyond Danger Point

Managing Editor

How much does the American public know of its government's activities? Is it more, or less, than what

Certainly, there are "top secret" matters and rules in the curious and confusing game of diplomacy the public shouldn't know. but there is a danger point in government lying in a democratic society. J. Russell Wig-

gins, editor of the Washington Post, in his book "Freedom or Secrecy," said:

Brad

the truth effectively when truth from Secretary of State Dean Rusk, would serve its interests best. A government that too readly rationalizes its right to lie in a crisis will never lack for either lies or crises."

AMERICANS AND OTHERS in the

world might question the necessity and wisdom of some of the U.S. federal government's decisions to lie. Under Dwight D. Eisenhower, the government lied about the U-2 plane

shot down over Russia in 1960. John F. Kennedy's government lied about the Bay of Pigs invasion in 1961, through its ambassador at the United Nations

There are signs of official manipulation of the truth by the present administration

SINGAPORE'S PRIME MINISTER Lee Kuan Yew last August claimed "If a government repeatedly re- a CIA agent had offered him a \$3.3 sorts to lies in crises where lies million bribe five years before. The seem to serve its interests best, it State Department denied it. Lee will one day be unable to employ came up with a letter of apology

Nebulous or not, why not admit it Though the danger point may yet be far off, instances such as these ignite a flickering doubt; they make one start wondering just where that

DESTROY A MACHINE TODAY!

'Compact' Spurs Educational Growth

for a possible way by which the road to the nia's own Edmund G. Brown. development of a nationwide educational policy might be opened up. Let the 50 states, tive steps implementing the Compact are or at least 15 to 20 of the more populous being drawn. A site for a permanent facility states, enter into a compact for the creation is being sought and the selection of a naof an 'Interstate Commission for Planning tional director is in the process. a Nationwide Educational Policy. . . '"

In this single statement, James B. Conant presents the idea for a dynamic organization to "bring together educational and governmental leaders for the improvement of education.'

Called The Campact for Education, the organization formed last year is made up of states that have joined in an unprecedented movement in American education. Since education is a constitutional prerogative of the states, the Compact represents a direction fundamental in American philosophy.

Such an ambitious, purposeful direction has long been needed. The states have been feeling the encroachment of the federal government into this previously statesovereign function. But as Conant continues, "... Washington alone cannot do the job

that must be done. . . . The vast increase in federal funds for education . . . is all too likely to result in a tangled mess that no one can straighten out unless the states take new and energetic action. The times challenge educator and statesman alike. What will be the response from the states?"

Response to this challenge is the Compact, drawn up in 1965, comprised of state representatives, PTA officials, board of education members, superintendents, university presi-

"Let me be bold and make a suggestion dents and governors . . . including Califor-

At present, the physical and administra-

Financially, the Compact will be state supported. Each member state will contribute annual dues, commensurate with the per capita incomes of the state population. Legislative action within each state government will place the Compact permanently in American education.

Approximately 50 long and short range goals have thus far been outlined—ranging in scope from problems during pre-school training to measure and research projects concerning the two grades immediately after high school.

The Compact is not an authoritative policy-making voice. It will suggest policy alternatives, research projects, gather new ideas and present a forum for discussion and recommendations.

Because of the high purposes presented by the Campact, if successful it possibly could be the single most important step in the educational growth of this country in 20 years. It does not . . . "represent a drive for conformity . . . is not a lobby . . . is not a curtailment or attack on federal aid . . . is not to compete with any organization in the field of education."

It is instead, a stimulus for "...diversified answers to educational problems, bringing federal and state officials and educators together in cooperation.'

FEATURE THIS

Celestial Quick-Change

By SANDRA HUMPHREYS

Staff Writer Within moments the sky changed from light to dark; as night stars became prominent in the east, wideeyed young faces watched the moon rise. No, this isn't a Boy Scout troop camping in the wilds, but a group from Chast Street Elementary School watching the astronomy program in Valley's Planetarium.

Children from San Fernando Valley elementary schools in the fifth and sixth grades have been lining up outside the Planetarium on Tuesdays and Thursdays for the last three semesters, each one awaiting Robert L. Cooney, associate professor of astronomy, who will narrate as the stars move overhead. This program affords them perhaps their first look at the workings of the universe

Cooney worked to bring this program to Valley, putting together slides and orientation to form a basis for instruction. Work is being done to "develop a new program," Cooney said, this will be done by adding two new segments to the four already being used. The four segments in use now include the general universe, the solar system, galaxies and celestial measurements, given for gifted stu-

The first segment on the general universe "gives a broad view of celestial objects such as gas clouds, novi, plus day and night sky," stated

A more detailed view of celestial objects is found in the second segment on the solar system. Satellites, comets and celestial bodies are depicted. Slides are shown on objects in addition to paintings and photographs; some 80 slides are used in the entire program. A star projector, a small replica of the one at Griffith Park, is used to project the various parts of the universe on the ceiling of the Planetarium.

Telescopes, star clouds, the Milky Way and distant galaxies are the topic of the third segment

Fewer gifted classes attend than others since these children are rare. but when they come they learn some of the elementary forms of astronomical measurement

At the end of each segment a question and answer period is held. "Questions usually run something in relation to 'Why,' 'How big is . . .' and What if . . . '," reports Cooney.

These classes are selected by the principal of the elementary school on their intelligence and group progress. The children are brought to Valley in busses as a field trip. One segment may be attended or on separate occasions the three may be attended consecutively.

The "oos" and "ahs" coming from those wide-eyed, captivated children proved the pricelessness of this program and the need for future pro-

"HOW BIG IS ...?" — Fifth and sixth graders from schools in the Valley learn something of the solar system and the universe when they come to Valley College to benefit from the programs prepared by Robert L. Cooney, associate professor of astronomy. Cooney lectures to the children on various aspects of astronomy. __valley Star Photos

tion placed second with 45 per cent Beta Phi Gamma, national honorary journalism fraternity, came in third with 35 per cent. Last year's winner, the Knights, Valley men's honorary service organization, gave 21 per cent.

16 Clubs Participate Winning clubs are determined by the percentage of total active members who donated blood. Of the 44

clubs on campus, only 16 participated. "This year the Administration, club representatives and the Valley Star did an excellent job in helping to inform students and to make the drive the success that it was," said Curt Shaffer, chairman of the drive and commissioner of men's athletics.

Blood Available ave will benefit greatly, those who did no still have an opportunity to give blood at any time to the Red Cross for the Valley College blood bank. They need only to get in touch

with the Red Cross. Students and staff who gave blood are entitled to draw from the bank for themselves and their family whenever they need it as long as the original donor is connected with the

William E. Lewis, dean of students, said. "We know that in such a large campus it is impossible to reach all the students, but Curt Shaffer did the best job that has been done thus far on informing persons of the blood drive. I am also pleased with the club representatives in working with Shaf-

Concert Set For Sunday

Associate News Editor

"Doc" Severinsen, lead trumpet player with the NBC staff orchestra, will be the featured artist Sunday at a clinic and concert to be held here and at Francis Polytechnic High

The clinic, which begins at 3 p.m. here, will be held in the Choral Room of the Music Building. Severinsen will demonstrate various trumpet techniques and answer any questions posed by the audience. Open to the general public, the clinic is directed to aid dance band students, as well as trumpet players.

Tickets Available

The concert will be held in the auditorium of the high school, located at 12431 Roscoe Blvd., Sun Valley. Tickets for the 8 p.m. performance are \$1 and \$1.50 and may be purchased from Richard Carlson, dance band director. All seats are reserved.

Included in the program will be the selections, "Young Man with the Blues," "Sunday Morning," and an arrangement written especially for Severinsen called "Rhapsody for Trumpet," all to be played by the Valley Dance Band.

Band To Play

Other numbers will be played by the Poly concert band, with Severinsen participating in many.

This is Severinsen's second California appearance. After conducting the program Sunday he will travel to Merritt College in Oakland, and then out of the state to Las Vegas. There he will appear at the Stardust Convention Center on the Strip, where he will be accompanied by the Las Vegas Youth Band.

Severinsen has been with the NBC staff orchestra for 15 years. For the last 10, he has been first trumpet player and is considered by members of the profession to be one of the best.

He has played with the Tommy Dorsey and Charlie Barnett Bands and is a Command recording artist. He has recorded various albums, both as the featured player and as a member of the orchestra.

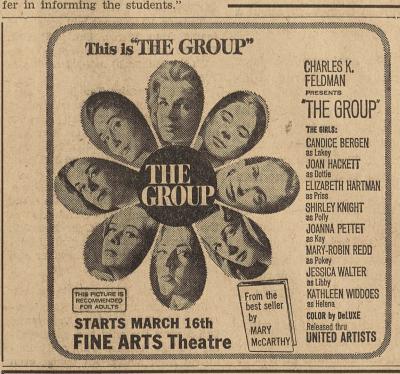

Musical Family

His father was an amateur musician. He played the violin and learned to play the coronet while his son was learning how to play the trumpet.

While in the Army during World War II, Severinsen met Dizzy Gillespie and many other orchestra and band leaders. He came under the in-Shaffer also added, "Those who fluence of Harry James and admired James' style so much as to model some of his music after him.

CAR POOL

In future editions of the Star this space will be donated as a school service for students interested in participating in car pools. Because of the enlarged enrollment of Valley students and the limited amount of parking spaces it is suggested, by the Star, that persons interested in initiating a program list the particulars of time and locations that their cars will be made available and deliver them to BJ114 for publication.

"Mandate for Change" was the theme rather than plow ahead." for the 50th bi-annual California Junior College Student Government Association Area 4 Conference held

The first such conference to be held at Valley, it was attended by over 250 delegates from 12 separate colleges. Area 4 is one of eight CJCSGA con-

ference areas in the state. It consists of 12 colleges in a territory stretching from Santa Barbara to Blythe.

Keynote speaker for the conference was John Burdick, state conference adviser. Speaking on "The Relationship of the Area Conference to State Conferences," Burdick made the following comment: "Because of the focus on youth today, this kind of conference will result in changes in three areas. These are an application of new ideas and a renovation of the old ideas to the home school; an individual change which contributes to the individual's growth and finally an organization of the state association." He also emphasized what can happen to the individual and his school when

Common problems which present a "he studies ahead what's being done,

Starting at noon, delegates first registered, then attended a general assembly. After the assembly, they dispersed to various workshops, each of which was conducted by a chairman. After a dinner served in the school cafeteria, the separate schools met in caucus. A final general assembly was then held to the purpose of ratifying resolutions and recommendations that came out of the work-

A resolution is an idea that a workshop prepares and passes and refers to the general assembly for action. It is then voted on by the general assembly and carries, if approved, the weight of the general assembly or area. It can make requests or be in favor of a certain course of action.

A recommendation, on the other hand, is an idea that the workshop desires to bring to the attention of the general assembly. It carries the weight of the workshop only and is not voted on during the assembly.

Journalist Gets\$300

Jack O. Easton, Valley Associated Students president, Fall '63, is the winner of the 1966 Osherenko Journalism Scholarship at UCLA in the amount of \$300.

In January Easton was graduated from the University of Southern California with a bachelor's degree in telecommunication and is presently continuing his studies toward a master of arts degree in journalism at

During his tenure as A.S. president at Valley he initiated drives designed to increase school spirit at football games and dances. He invented the "booster derby" and the "booster button," articles which gave the students some identity at football games.

In addition to Easton's participation in student activities, his cocurricular activities included sharpshooting and acting.

He has demonstrated his ability as an actor numerous times on television in such shows as "Alfred Hitchcock Presents," "Wagon Train," "Bonanza," "Surfside Six," "The Virginian" and "Channing." He also appeared in one feature motion picture, "Blue Denim," and on Chevrolet and Standard Oil TV commercials.

Easton plans to go into the field of public relations and advertising after completing his education.

Valley travels to Pierce today for a 3 p.m. meet. On Tuesday the Monarchs will open the home dual-meet season against Pasadena, the defending National Federation Gymnastic champions.

Valley goes into both meets as an underdog, in spite of the winning performance of the Lions in last Friday's Metro Preview.

Pierce Standouts

Pierce Coach John Muir, coach of the 1964 Olympians, has lined up

saq and Steve Kawalesky in the rope Paul Kersey, all around.

In an early season meet, Pierce defeated Santa Monica 106-52 with almost the same lineup that will face

The Brahmas romped over the Corsairs in 7 of 10 events while sweeping the first three places in four.

Seldom Defeated

Tuesday's meet should be even tougher with the Monarch gymnasts hoping to break a 77-match Lancer win streak.

The ring event should be one of the

Lions Look for Runs Against Elac, Vikings

Hoping to get something in the runs in the last 47 innings, Cicotti his low scoring club, Coach Bruno Cicotti will take the Monarchs on the road tomorrow for a 2:30 tilt at East Los Angeles, then bring them back to face Long Beach at the same time on Tuesday.

While all too aware of the fact that his club has scored but four

way of a winning streak going for insists that the Monarchs are a first rate team, and fearful coaches throughout the conference tend to strengthen his beliefs.

The fact of the matter is, not one coach in the league looks forward to seeing Valley. Wally Kinkaid was sure that the Monarchs would end his Cerritos outfit's winning streak

Runs Only Flaw

Producing runs seems to be the only flaw in the Monarch baseball machine. According to Cicotti, "I haven't any immediate changes in mind, but if some of these guys don't start hitting, I'll have to find someone who will."

Cicotti went on to say, "We're playing good ball. The pitching is great and we're making fewer errors. We're even getting some hits, but they're not coming at the right time."

Big If

If the pitching holds out, the runhungry Lions have a good chance of getting fat in the win column.

Neither Long Beach nor East L.A. have shown a whole lot of talent so

Chips Swanson, winner of the Bakersfield game, is slated to go against Elac with Dave Smith or Bob Blackford getting the nod against the Vikings.

"We're ready to win," says Cicotti. 'The guys are working hard and really want to win. They're not trying to leave men on base; that's just baseball."

Valley Hosts

Valley College as a minor sport, continues to capture headlines, as the Monarchs again take a major step toward bringing the sport into the regular Metropolitan Conference schedule, when they play host to the Junior College Tournament today.

On Tuesday an Olympic exhibition will be held with many leading men and women athletes participating. Physical education classes at 9, 10 and 12 o'clock will be dismissed to view the

Tumbling—Valley (Denny Morrison, 17.1; Greg Horrocks, 15.3; Rick Talavera, 15.2), 48.1; Long Beach, 45.1; Santa Monica, 44.9; East Los Angeles, 41.1; El Camino, 30.8.

Team totals—Valley 44½, Santa Monica 31, Long Beach 29½; East Los Angeles 30, El Ca-mino 7, Cerritos 2. Trade Tech results:

Rope climb—Tie for first between Valley John Darakly) and ELA (Steve Koon) 3.7; Fullerton (Phil Murphy, 3.9); Valley (Dave Lamberete, 4.0); LBCC (Steve Allison, 4.8). Free exercise—TT (Greg Davirson, 17.7); TT (Lawrence Peete); LBCC (Richard Gness); Valley (Denny Morrison); LBCC (Don Blair), tie for fifth place.

Long horse—TT (Alan Oliney, 18.35); Valley (Doug McMenamin); Valley (Ronie Bell); Valley (Ted Schmidt); TT (Lawrence Peete). High bar—TT (Alan Oliney, 17.5); ELA (Raul Hernandez); ELA (Robert Trevino); Valley (Dan Connelly); Valley (Ronnie Bell).
Side horse—LBCC (Jerry Martin, 17.3); LBCC (Hall Blaine); ELA (Alfred Carmona); LACC (Celso Oliva); TT (Joe Cooper).

Still rings—Valley (Dave Lamberte, 17.3); ELA (Steve Caballes); Fullorton (Fred De Falco); tie for fourth between Valley (Sam Rozay) and LACC (Steve Seinberg). Parallel bars—ELA (Raul Hernandez, 17.8); Valley (Dan Connelly); Fullerton (Phil Murphy); LBCC (Rick Crosby); tie for fifth between TT (Tony Tapia) and LACC (Dale Tumbling—TT (Alan Oliney, 17.5); LBCC (Don Blair); tie for third between TT (Jackson) and LBCC (Rar Griffin); Valley (Denny

Morrison).

All around—TT (Alan Oliney, 53.35); TT (Lawrence Peete, 49.8); ELA (Raul Hernandez, 49.6); LBCC (Don Blair, 49.25); LBCC (Richard Gness, 47.5).

Final team standings—Trade Tech, 43; Valley, 34.5/6; ELA, 30½; LBCC, 22.1/3; Fullerton, 9; LACC, 4½.

Netmen on Top With 2-0 Mark

By knocking off conference foes, Cerritos (5-4) and Bakersfield (6-3) added to a non-league 6-3 triumph over Ventura, Valley's powerful net-

men now hold an unblemished 2-0 conference mark (yesterdays E.L.A. results unavailable at press time) and an undefeated 8-0-1 season record. In the Bakersfield match, Athletic

Director Ralph Caldwell took over the coaching chores for Al Hunt and the Valley recquetmen gave him his first Leading the way against the Rene-

gades was Rich Berman and Al Bernstein. Berman, number two man, pounded out a 6-1, 6-0 win over Dave Rainey. The forehand of number three man Al Bernstein proved too much for John Anderson, and Bernstein triumphed 6-3, 6-2. Captain Bill Rombeau went 32

games before bowing to the number one man for the northern netters Jim Olcott, 4-6, 6-4, 7-5.

The Cerritos Falcons came quite close to handing the Lions their first loss of the campaign, but vitories by the top four men-Rombeau, Berman, Bernstein, and Erwin Wolf-equaled

the Falcon output. In the Ventura matches, one of the hardest contest this season, Valley captured four singles matches and two doubles contests. Top winner was sixth man Jon Janotta witth a 6-1,

6-3 conquest over John Pruitt. Tomorrow the Long Beach Vikings behind the power of Paul Hastings, an all-leaguer from Wilson High, serve as hosts to the Monarchs in a Metro meet. Monday the hometown net men return to the local courts to enter-

tain the USC Trobabes. Wednesday Coach Hunt's racquet squad will face their toughest match to date. The Santa Monica Corsairs come to town loaded with talent. The Bucs' brigade was led by Fred Blumenstein, one-half of the junior doubles champions of the French Riviera, but

he left school and returned to France. Jeff Carter, all-city from Hamilton, All CIF player Vic Gedguadas and Alan Hoffman, the number one man from Venice High, provide the depth for Tom McGarvin's Corsairs.

VC Nips Bakersfield, Monarch Swimmers Set Aims

Sports Editor

Valley's toothless baseball Lion took a brief respite in its scoreless inning string to eke out a 2-1 win over Bakersfield last week before being shut out again Tuesday by the best two-year college baseball team in

The Cerritos Falcons, undefeated in the past two years, proved once more why they're on the top of the Metro heap when they got to Bob Blackford in the sixth inning for three hits and a pair of runs on their way to a 3-0 win over the

Until the sixth, Blackford was finding the going easy, allowing only one hit, but things got sticky when Falcon pitcher Jim York started the sixth with an infield hit.

Two Run Triple

York was erased when Rich Emard forced him at second, but Emard stole second and got to third on Chuck Ramshaw's bunt single. Blackford's death knell tolled when he got an 0-1 fastball up to Scott Reid and watched it bounce off the

Lions Finish 4th in WIFC

Valley's fencing team was a mild disappointment as they finished fourth among 10 teams entered in the annual Western Intercollegiate Fencing Championships at UCLA.

Participating in the competition were teams from the University of California at Berkeley, University of California at Riverside, UCLA, Air Force Academy, San Francisco State, Long Beach State, San Fernando Valley State, San Francisco City College and Cal Tech.

The University of California at Berkeley won the overall team title with the Air Force Academy finishing second and UCLA third. With Jack Beyer and Ed Lester re-

turning from last year's squad, Valley was expected to do as well or even better than last year when they placed second to the Air Force Academy. However, both Beyer and Lester turned in disappointing performances, but because of the fine fencing of newcomers to the team, Duane Oshinomi, Peter Lodato and Danny Linkmeyer, Valley was able to finish as high as they did.

Valley placed fourth among the 10-team field in the foil competition with a 6-3 record. The Lion losses came at the hands of the Air Force Academy, UCLA and San Francisco State. The University of California at Berkeley won this event with an 8-1 record, with Valley handing them their only loss.

The sabre team turned in a creditable performance, finishing fifth, despite being shy one team member. Beyer and Lester turned in fine performances in trying to overcome the handicap of a forfeit that was assessed each time the third team member was scheduled to fence.

Based on the strong performances given by Oshinomi, Lodato and Linkmeyer, Valley has the nucleus for another strong team again next year.

right-centerfield fence for a triple. The Falcons added a meaningless third run in the seventh on a double by Steve Runk and a base hit by

Dick Butler. Line score:

000 000 000 York and Lohnes; Blackford, Smith (8) and Fusano, Capka (8) Doubles; Runk, Rhodes Triples; Reid

It was a story-book ending against Bakersfield here Friday.

Behind the four-hit pitching and timely hitting of Chips Swanson, the Monarchs pulled out their only conference win to date in the ninth

'Gades Lead

It looked like it was going to be another one of those days when the Renegades scored once in the first and held on to that skimpy lead

Only a blind stab in the eighth by third baseman Bill Satterfield prolonged the Bakersfield lead. With John Landtiser at third running for Don Epstein who had doubled, Ira Herringman lined a shot that had extra bases written all over it. Satterfield, playing close to the bag, went about as high as he could go to haul it in for the third out.

Error Ties Score

Leading off the Valley ninth, Vern Henry reached first on an error and stole second. With two down, Jim Werder singled to center moving Henry to third. Tudy Martinez followed with what looked like a game ending ground out, but 'Gade shortstop Jim Kennedy threw it into the parking lot, scoring Henry and moving Werder to third.

With the count 1-0, pitcher Swanson turned into hitter Swanson and ripped a base hit into left, scoring Werder and putting the lid on the Valley victory.

champion in the 50 yard freestyle.

Simple Secret

According to Wiley, "The harder you work, the higher your pulse should swimmer knows that he is working his hardest when his heart beat reaches a certain level.

This year's team is moving towards the State Championship in such a manner that any JC team in Southern California that faces the Monarchs most certainly will be topped.

Topped by Cerritos Toward California Championship The sole obstacle between Valley College and the state swimming swimmers plus the conscientious

After coaching Valley's swimming team for the past eight years and watching some of the San Fernando Valley's greatest swimmers come and go, coach Mike Wiley finally thinks .000 002 10x that this year he has the team capable of winning the state champion-

This year's team has more depth than any team in Monarch history, possibly in junior college history. Increasing from last year's moderate squad of 15 men, his team this year consists of 23 members.

Strength Indicated

Valley, like any other quality team, has a few swimmers on top of the times-lists. Such swimmers as Steve Danielsen and Kim Roush indicate

Danielsen, who stands 6 feet 2 inches tall and weighs in at a hefty 200, is the swim team's pride as they face conference and other foes. To see him standing on the blocks readying for his race, an uninformed spectator would not think this boy capable of even finishing a 1650 yard freestyle (66 laps of a 25 yard pool) much less setting a Southern Califor-

Freestyle Surprise Before the State Meet last year Roush was known around the Metro Circuit as a fairly good backstroker. In the State Meet, however, Wiley decided to see what Roush could do in a freestyle race. In the 100 yard freestyle, an event in which he had never before competed, Roush qualified first in the state in a near-record swim of 48.4. Finishing fifth in the finals, he is this year's favorite to

win the state crown. Swimmers such as Danielsen and Roush are but a portion of Valley's swimming strength. Backing them up is a hard-core of swimmers, all capable of placing somewhere in the top twelve places in the state. Virtually every one of Valley's 23 swimmers placed in the Los Angeles City High School Championships. Among these are such greats as George Horton, city champion in the 400 yard freestyle and the 200 yard individual medley; Don McKenzie, top rated breaststroker; Ralph Nelson, distance freestyle; and Tom Patterson, city

Hard work is Wiley's simple secret to success for his swimmers. Through the years, he has developed his own specific method of pulse rate workouts. After each race in a workout, individual athletes record their pulses and their times. Thus at the end of the season, Wiley has a record of not only meet times, but every time recorded by his swimmers in workouts along with their pulse rates. be." According to this system, a

By DAN EHRLICH **Guest Columnist**

Although more than 14,000 students may have enrolled in Valley this semester to take advantage of the many outstanding facilities offered by the school, in some departments these individuals may be getting short changed.

For example, take the ever expanding Monarch physical education department. The way it looks now they have just about expanded as far as they can go unless some drastic events take place very soon. These events being mainly several cloudbursts of money.

Through the years the men and women instructors of Valley's P.E. program have provided some of the finest and most comprehensive athletic instruction to be found anywhere. Along with this excellent instruction, the department facilities have grown to be the largest in the Metropolitan Conference.

YET IT STILL ISN'T complete. A quick glance at the P.E. courses offered in the catalog lists swimming along with the others such as football and wrestling. What the catalog doesn't tell you is all students who elect to sign up for this course, whether it be in a gym class or on the swimming team, will in fact not be swimming at

ities of Kris Kristenson's Swim School on Victory Boulevard, about a mile from the campus. Yes, this modern school of more than 14.000 Every time a swimming class is held or the school team competes for the old alma mater, a caravan of cars can be seen leaving Mon-

For the past decade, Valley college has had to utilize the facil-

archville and heading for the pool. Don't get the impression, however, that no one has ever thought of installing a pool on the campus, because it has been in the works for quite some time. Not only have plans been made for the facility, but a place to put it has already been staked out. The only thing that remains, and has been remaining for 10 years, is digging the hole

and pouring the concrete. HERE IS WHERE THE 10 YEAR stumbling block comes in. To furnish money for the needed supplies, labor and equipment funds from the board of education must be allotted. These are not just ordinary funds, however. For the school to get its swimming pool, the entire city of Los Angeles must pass a bond issue providing funds for the school board. In turn the board will allocate the funds to

In the past this bond has met defeat and Valley is still left without a pool in an area where swimming is almost as common as walking. One thing can be said for sure, with the constant growth in the area, Valley's enrollment isn't going to get any smaller and with the spring semesters as hot as they are, the need for a complete on campus water sports program cannot be over emphasized.

It seems funny that a school which has a swim team placing as high as it does in conference and state year after year, this year having a good chance to capture the state championship, is the only top rated institution without a pool of its own. * * *

"God I'm a great coach," were the only words being uttered by

assistant track coach Nick Giovinazzo when he witnessed Valley's

high scoring 6'7" forward Charles Robinson from the hoop squad

sign up for the track team and make two extremely impressive showings the first day he ever donned track shoes. Robinson, with no practice, long jumped 23'8," the school record being 24'6." After accomplishing this feat, he then triple jumped 46'3" officially. Unofficially, however, Robinson actually made a leap of close to 50,' taking off three feet behind the board.

'Long John' Hits Stride

Former Cage Star AidsValleyVictory

By SY ORNSTEIN Staff Writer

The welcome mat was rolled out by George Ker for former Metropolitan Conference basketball ace Charles Robinson, And not too soon!

It was Robinson's winning efforts in the long jump and triple jump that proved to be the deciding factor in the tightly contested dual-meet victory over El Camino College. The versatile athlete leaped 23 feet 8 inches and 47 feet 71/2 inches to take away what would have been two El Camino first places and a sure Warrior meet victory.

Tight Victory

Hollywood's script writers could not have come up with a more dramatic ending for Valley's 70-66 conquest.

For 15 events and 1.610 yards of the last race the meet was like a see-saw battle with the final outcome constantly hanging in the air.

The last event of the day, the mile relay, came to be the clincher. Dennis Parkherst, Danny White and Lloyd Hughes opened up a 15-yard lead and kept it for three legs of the

Ron Couser took the final baton handoff for the Monarchs but a determined Pete Smythe of El Camino caught Couser on the final turn. The Monarch ace then put on a final kick to stave off the Warrior threat and brought home the deciding victory. Valley was timed in 3:21.7.

Haggard Wins Pete Haggard surprised the partisan El Camino spectators when he no surprise when Monarch swimmer the Monarchs when Terry Finucune upset a highly favored Warrior duo missed a turn and by the time Steve in the 880-yard run. Haggard, whose Danielsen began the final leg, the times have been coming down at the Long Beach team had almost a full rate of a second a week, was timed

> El Camino was not without its own Monarch, really cut loose and won surprises, however, as the Monarchs' "sure bet" to win the mile, Joe Santa Cruz, was nipped out at the tape by Warrior Doug Hall. Both runners

> > Mann commented that the per-

their worst, while the Vikings played

losses. The win was recorded when

the losses occurred when Valley fell

one of their finest matches.

to Cerritos and Long Beach.

Santa Cruz came back to win the 2-mile run in 9:54.8. The race was highlighted by a bold effort to capture third place by Valley's John Oxman. Running the entire race with a bloody nose, Oxman made a final bid to catch El Camino's Steve Goetz, but the physically healthier Goetz was able to hold off the Monarch bid.

Valley received a break in the 120yard high hurdles when a Warrior that was leading the race hit a hurdle and fell. Two Monarchs, John Hunter and Dan McFarlin, took advantage of the mishap and finished one-two.

Corsairs At Valley

Valley track tomorrow at 2:30 p.m. looks like a one-man decathlon, Valley fans shouldn't be surprised.

Bruce Veenker, known around SM-CC as the Bible-toting thinclad, is as versatile as any track athlete in the conference. Veenker is a sprinter, pole vaulter, triple jumper, discus thrower and hurdler, and boasts outstanding marks in all of these events.

Because of Santa Monica Coach Carl Merritt's small turnout for track (25 men), Veenker will probably see action in most of the events men-

Aside from Veenker, the Bucs have only five other men with creditable performances. Three of the athletes, Isaiah Oakes, Gordon Dixon and Jerry Johnson, are weight men.

Oakes, who is the best shot putter in the conference thus far this season, has a 1966 best throw of 52 feet 5 inches, and has thrown the discus 142 feet 5 inches. Dixon has been over 49 feet in the shot and last week he hit 133 feet in the discus.

An old high school rivalry will be re-opened when Corsair sprinter Gary Mitchell will match his speed with Monarch Don Couser. Mitchell has a best time of 9.9 for the hundred and Couser has clocked a 98

Corsair miler Paul Robison equaled his life-time best last week when he ran a 4:24.2 mile. Joe Santa Cruz, who was beaten by an inch in the mile run at 4:28.2, will have his work cut out if he is going to beat the speedy Buc. A quick look at both teams' best

times finds the Monarchs a solid favorite to make it two wins in a row for the current 1966 conference sea-

PREPARING FOR CONCERT - Sister Martin Augustine (right) and Sister Mary Mark discuss music to be played at the Campus Concert today. Selections from Bach, Brahms, Strauss and Chopin are planned.

PlaySeasonOpens With 'Saint Joan'

With "Saint Joan," the Theater be performed in a major production Arts Department presents its first major production of the semester.

Director Patrick Riley, assistant professor of drama, has announced his cast for the three-act play written by George Bernard Shaw.

As Joan, Osa Danam will perform in her fourth starring role on the Valley Theater stage. Previously she played in "The Rainmaker," "Stop the World" and was the princess in "Once Upon a Mattress."

The Dauphin will be played by Tony Lawrence, and Lee DeBroux is cast as Dunois.

Others in the cast are Jack McMurray, Richard Vein, Doug Carter, Joe Lupica, Steve Heu, Mike Cullen, Marianne Whitley, Charles Brooks, Frank Stell, Jay Shapiro, Pete Parkin, John Krom, John Nichols and Alex Elias.

Heading the stage crew will be Rick Shaw. Eric Townsend will be chief lighting technician, and the costumes are designed by Marianne Whitley. Enlarged Area

The cast of 19 has been in rehearsal for five weeks. For the first time an enlarged stage area covering the entire orchestra pit will be in use.

"This play needs a deep stage," said director Riley. "The actors will be down nearer the audience during much of the performance.

"It's a favorite show of mine. We're going to set a simple stage. The play is beautiful, and I think anything

beautiful must have simplicity. "But, with an open stage there can't be any mistakes. Not only the cast. but the production crew has to make an extra effort on the details."

This is the first of Shaw's plays to

College Doctor Addresses AMS On Social Life

Starting the series of guest speakers, Sidney Leibman, M.D. for health services at Valley, will discuss "Health and Social Problems of the Young College Man Today" at the Associated Men Students' meeting, which will be held tomorrow at 7 a.m. in B25. The meeting and discussion will be

open to male students only.

As a recognized authority in the field of medicine and psychology, Dr. Leibman will be able to answer questions regarding general graces on dates and other social problems.

According to Samuel T. Alexander, assistant dean of students, "This open discussion, based on interest shown at early AMS meetings this semester, should be most profitable for the young men at Valley, Dr. Leibman is ably qualified to answer questions and discuss areas of interest."

Students are asked to come prepared with questions to be answered

Voice of Truth Speaks in 'Man'

So thunders Charlton Heston as Sir Thomas More in "A Man for All Seasons" to his friend the Duke of Norfolk. What is the length a man will persevere against friends. family and threat of torture to maintain his principles?

DeGraw Norfolk calls More to join all his friends in signing an oath to King Henry VIII in favor of his divorce of Katherine of Spain. The quoted passage above is More's answer.

A moral play about a man unbending in his conscience and in his values, "Seasons" brings to the stage of the Valley Music Theater the voice out of history-a voice so eloquently in tune with truth and so technically perfect in presentation it makes history a living thing. But what has a moral play, a reli-

gious play to say in 20th century America where principles lie vaguely submerged under mountains of commercial words, advertising slogans and white-washed politics?

"Times," says playwright Robert Bolt, "haven't really changed." It's not an original premise but in this play the author has brought a valuable slant on the old problem of a man living with himself. In 1532 there were mountains of words, spoken and lived in the philosophy of religious self-righteousness, and whitewashed politics where everyone had to play the game. There were yes men then, only in lace robes instead of grey flannel suits, who licked the king's boots to gain favor. More would not add his name to

the oath of allegiance which condoned King Henry VIII's divorce of Katherine of Spain. The King (Donald Madden) is a flippant, spoiled dandy who finds the uncompromising stand of his chancellor an unyielding bone in his royal throat. IN THE ATTEMPT to win More,

the king tries every means to smooth this the only bump in his path of marriage to Anne Boleyn.

Because he can't yield, More resigns as chancellor. The tragedy of impoverishment strikes at his beloved family first. His wife (Lydia

and when you go to heaven for Clark Heston) holds up the domestic obeying your conscience and I go to walls for her family by stewing parhell for disobeying mine, will you go snips and scavenging for drift wood to keep the house warm. But even she begs More to relent and give his

blessings to the marriage. More's friend the Duke of Norfolk (John Myhers) calls him to join his friends on the King's side.

CHARLTON HESTON'S powerful More is one more historic figure brought to life. Moses, John the Baptist, El Cid and Michelangelo brought him to fame as a screen actor. His Thomas More is a moving human being, sometimes plagued by the mundane, always a man who can be humble but who cannot go against

The Common Man (John Heffernan) invites the audience to enter his master's house, as the valet of Thomas More. This character bounces around the stage, greeting characters, interjecting pertinent comments ("Those that make the rules, don't row the boat," he grumbles as the overworked, underpaid boatman.) The common man here stands for the opposite of More at his highest point, the opportunist, the trusted servant ... trusted to do the master out of everything he can get away

"A Man for All Seasons" will show what a principle looks like, how it operates in the conscience of a man and how it destroys him, in case the viewer should stumble over a principle and be at a loss to identify it.

ANY RESEMBLANCE to "Becket" might be incidental, and a similarity to Job is parallel in "Seasons." The trial of one man against everything and everyone is a story of basic proportions understandable and applauded by even small children. "Seasons" is an historic play, and

each line is full of meaning. It is not simple, except in the technical presentation of a minimumly set stage. Because of the skill with which it is written and ultimately played by the cast, "Seasons" is successful as a dialogue which shows the human emotions which guide history.

Library Hours

Valley students can use the Library's facilities daily except Friday from 7:45 a.m. to 10 p.m. Fridays it is open from 7:45 a.m. to 7 p.m. and will remain open during construction. The Library is not open on weekends.
